

**PSTOOLS**  
Professional Electrician Tools

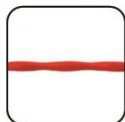

**PS1**

### 1LINE TWISTED FISH TAPE (Ø3.7mm)

Dia. 3.7mm 1 line twisted, which can reduce the friction of the surface and allow it to pass easily through pipes and conduit. Especially, it makes increase work efficiency by further increasing strength and elasticity with special plastic materials.

**\*BIG SIZE HEAD**  
- Available to work with  
Many cables connected

**\*NANO TWISTED**  
- Improve tensile & flexible  
- Low-friction

**\*HEAD WIRE COATING**  
- No rust  
- Improve durability

Size : 7.5mm x 3.0mm Pullout load : 195kg

**COLOR** Red / Green / Yellow / Black

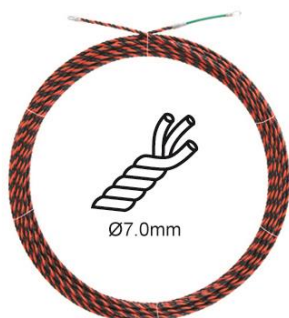

**LENGTH** 10M / 15M / 20M / 30M / 50M

**PS3A**

### 3LINE TWISTED FISH TAPE (Ø7.0mm)

Dia. 7.0mm 3 line twisted, which can reduce the friction of the surface and allow it to pass easily through pipes and conduit. Especially, it makes increase work efficiency by further increasing strength and elasticity with special plastic materials.

**\*BIG SIZE HEAD**  
- Available to work with  
Many cables connected

**\*NANO TWISTED**  
- Improve tensile & flexible  
- Low-friction

**\*HEAD WIRE COATING**  
- No rust  
- Improve durability

Size : 11.0mm x 5.0mm Pullout load : 300kg

**COLOR** Red / Green / Yellow / Black

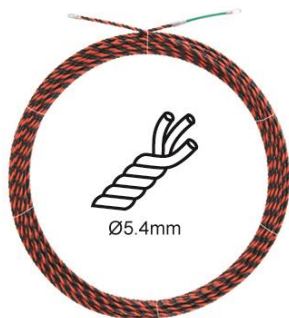

**LENGTH** 15M / 20M / 30M / 50M / 100M

**NEW**

**PS3B**

### 3LINE TWISTED FISH TAPE (Ø5.4mm)

Dia. 5.4mm 3 line twisted, which can reduce the friction of the surface and allow it to pass easily through pipes and conduit. Especially, it makes increase work efficiency by further increasing strength and elasticity with special plastic materials.

**\*BIG SIZE HEAD**  
- Available to work with  
Many cables connected

**\*NANO TWISTED**  
- Improve tensile & flexible  
- Low-friction

**\*HEAD WIRE COATING**  
- No rust  
- Improve durability

Size : 11.0mm x 5.0mm Pullout load : 270kg

**COLOR** Red / Green / Black

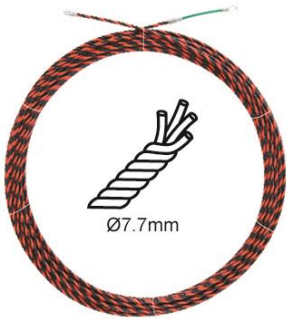

**LENGTH** 15M / 20M / 30M / 50M / 100M

**4LINE TWISTED FISH TAPE (Ø7.7mm)**

**PS4**

Dia.7.7mm 4 line twisted, it makes increase work efficiency by further increasing strength and elasticity with special plastic materials. In addition, it makes more powerful pulling than 3line twisted fish tape.

**\*BIG SIZE HEAD**  
- Available to work with  
Many cables connected

**\*NANO TWISTED**  
- Improve tensile & flexible  
- Low-friction

**\*HEAD WIRE COATING**  
- No rust  
- Improve durability

Size : 11.0mm x 5.0mm Pullout load : 400kg

**COLOR** Red / Green / Yellow

**LENGTH** 50M / 100M / 200M

**PSC3 CASE FISH TAPE (Ø5.4mm), PSC1 CASE FISH TAPE (Ø3.7mm)**

**PSC**

Compared with other case housing products, the power handle makes the case rotation more smooth and convenient to use.

**\*STAINLESS HOLE**  
-No rust & No abrasion

**\*PVC WIRE COATING**  
-No rust & increasing durability

**\*POWER HANDLE**  
-Very easy to winding & rewinding

**\*BIG SIZE HEAD**  
-Available to work with  
many cables connected

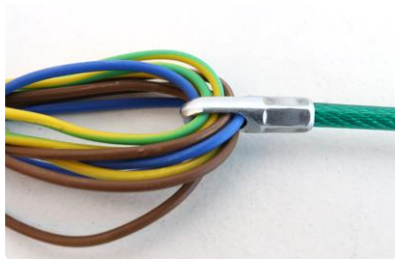

**PSC3 - 30M**

**PSC1 - 10M**

## ADVANTAGE

### 1. Big Size Head

-Big size head makes connect many wires at once to improve work efficiency and save your time!

### 2. Lead part wire coating

-Wire coating prevents from rust and increasing durability.

### 3. Nano-twisted line

-The firmly twisted wire increases the elasticity and strength, You can get through quickly.

## SPECIFICATION

MODEL	DIA(mm)	LENGTH	COLOR	PULL-OUT
PS1 (1line)	3.7mm	10m/15m/20m/30m/50m	Red, Green, Yellow, Black	195kg
PS3A (3line)	7.0mm	15m/20m/30m/50m/100m	Red, Green, Yellow, Black	300kg
PS3B (3line)	5.4mm	15m/20m/30m/50m/100m	Red, Green, Yellow, Black	270kg
PS4 (4line)	7.7mm	30m/50m/100m/200m	Red, Green, Yellow, Black	400kg
PSC1_CASE	3.7mm	10m	Red	195kg
PSC3_CASE	5.4mm	30m	Red	270kg
